

NORTH CAROLINA™
NCPTA
PUBLIC TRANSPORTATION ASSOCIATION

July 9, 2018

Dear Colleagues:

On behalf of the entire North Carolina Public Transportation Association, thank you for your past participation and/or membership in the Association and we hope you will continue to be part of the organization as we progress through the new fiscal year. The NCPTA is dedicated to serving and supporting all members as the voice of public transportation and advocating for enhanced public transportation policies and services at the local, state and federal levels.

Everyone's participation is critical to all public transportation needs and that is why each system's membership is so important. There remains much work to do with respect to non-emergency medical transportation (NEMT), SMAP funding, and the implementation of the Association's Strategic Plan. Systems also benefit from the NC Public Transportation Strategic Plan, which can be shared with our local elected and governmental officials letting them know how important transit is to our communities.

In addition to your system's membership renewal, please also consider volunteering for one of the Association's standing committees, even if it does require some investment of time. Only then will the Association be positioned best to support and assist all members with achieving "excellence in public transportation."

The period of membership for System Members is from July 1, 2018 through June 30, 2019. The annual dues for System Members are based upon the systems' annual operating expense as reported to the NCDOT Public Transportation Division. Please refer to the instructions in a letter that is being sent by the Executive Director. If you have any questions, please do not hesitate to contact either of us at clong@jacksonvillenc.gov and ahudson@kartsnc.com or the Association's Executive Director at director@nctransit.org

Thank you for your consideration.

Carol Hurst Long

Chair, NCPTA Membership Committee

Ann Hudson
